Introduction

Release 1.1.3 fixes a bug.

New Features

1. No new features were added in 1.1.1.
2. Simple Network Time Protocol will be implemented to support the customer in the ability to automatically keep the time and date of the unit synchronized with other devices on their network. The customer will be responsible for providing an appropriate IP address to an SNTP server that is compliant with RFC 1769. The unit will provide two remote commands and appropriate SNMP MIB leafs. The remote commands **Time Protocol Server (TPS)** and **Time Protocol Enable (TPE)** will be provided to allow the user to set the server IP address and enable the SNTP respectively. Once set and enabled, the unit will synchronize the date and time to the server at bootup and at every 24 hour time interval thereafter. These were added in version 1.1.2.
3. No new features were added in 1.1.3.

Bug Fixes

1. Fix a bug which SNTP enable displays 255.

Compatible SNMP MIBS

| MIB Name | Filename | Date |
|------------------------------------|-----------------|------------|
| HPOD Ethernet CEFD Root MIB | FW-0020546-.mib | 10/24/2011 |
| HPOD Ethernet MIB | FW-0020547A.mib | 10/22/2012 |
| HPOD Ethernet Traps MIB | FW-0020548-.mib | 10/24/2011 |

Known Issue(s) In This Release

None
